

# Otzi - Iceman Timeline Directions:

**Complete**

- 1. Draw a timeline near the center of the paper – 13 inches long
- 2. The date on the left of the timeline will be 4000 BCE
- 3. Include the year 0 (4" from the left side) and jagged lines on both sides of the 0 to indicate many years passed by 
- 4. The date on the right of the timeline will be 2019 CE
- 5. Include a title for the timeline
- 6. Dates – **Heading** for each with a date
  - a. Approximate birth year/location
  - b. Approximate death year/location
  - c. Date/location when he was discovered
  - d. Date/location when he was taken to the University of Innsbruck in Austria
  - e. Date/location when additional artifacts were recovered
  - f. Date/location where he rests now (Where? Describe his final resting place.)
  - g. Date/location when they thawed and examined his body
- 7. Details – Include at the bottom of the timeline
  - 1. Artifacts - List at least five and their uses/meaning at the bottom
  - 2. Medical Discoveries - What were historians and scientists able to learn from thawing and examining the Iceman? List at least five discoveries and the significance of each. (Think about what they learned about the Iceman and the time when he lived.)
- 8. Include at least 5 colored illustrations

	<u>Possible points</u>	<u>Earned</u>
Details – Title	1 point	_____
Headings with dates & locations	21 points	_____
Details – 5 Artifacts with uses/meaning	10 points	_____
Details – 5 Medical Discoveries & significance of each	10 points	_____
Colored pictures - 5+	5 points	_____
Effort/Neatness/Spelling	3 points	_____
<b>TOTAL</b>	<b>50 points</b>	_____

# Iceman Notes

Event	Date	Location
Approximate birth year		
Approximate death year		
Date of discovery by hikers		
Date the Iceman was taken to the University of Innsbruck in Austria		
Date when additional artifacts were taken from the site where the Iceman was found.
